

Careers and Enterprise

What is it?

We want you think about life during lockdown

The Careers and Enterprise Department set you the challenge of creating or upcycling an aid, something that could make life easier.

What you need to think about?

Is there a hack that you use to make something work?

Can you make something to help someone carry out a daily task much easier?

Have you already made something over lockdown?

Can you design something to entertain a child or support an elderly person?

Examples

What to do next

If the answer is YES to any of those questions, then this is the project for you!

1. Fill in an application form – Student Hub
2. Start designing your prototype - you can use anything to do this, recycled materials, paper, card, use what you have at home. You do not need to go out and buy new materials.
3. A member of the Careers & Enterprise Team will contact you with the next steps of the challenge.

What happens next

4. You will then be matched with a mentor from the world of work, who will look at your idea and help you develop it.
5. You will also work with your mentor to create a presentation showcasing your idea.
6. Final – Dragons Den
7. The winning team will receive a £100 voucher and an experience with a local employer.
