

BUSINESS

Intent

Business provides students with the knowledge, practice and confidence they need to become the next generation of capable employees and entrepreneurs. Our students will explore real-world situations to develop and embed these entrepreneurial skills, which will enable them to become finance friendly, analytical, articulate and problem solvers.

Overview:

This course is aimed at building enterprising minds through a series of theoretical & skills-based topics.

It provides students with an effective progression model to ensure that students are following the correct business course to ensure their success.

Curriculum strands:

Strand 1	Develop business knowledge & conceptual understanding.
Strand 2	Collate & manipulate data/ information.
Strand 3	Articulate & communication.
Strand 4	Interpretation/ application of real-world issues.

Curriculum structure:

The course is made up of 2 themes, which are assessed by 2 external examinations at the end of Year 11.

Theme 1	Develop business knowledge & conceptual understanding.
Theme 2	Collate & manipulate data/ information.
